

Service @ SEM

Welcome to SEM's Community Service Program! The goal of our program is to inspire and facilitate a giving spirit in each of you, so that reaching out to others and giving of one's time and energy becomes a way of life.

There are two places where you can get all the details about Community Service - the Student Handbook and the Community Service page at buffaloseminary.org/service. In the meantime, here are some highlights to help you get started:

- Each student is expected to complete a minimum of 10 hours of service each year.
- All work that is voluntary and that assists others will be counted as community service hours.
- Projects completed during the summer will be counted toward that coming year's goal.
- Keep a journal of your work - hours volunteered, dates of service, the name of each organization, and each project advisor's name and contact information - this is your record of your summer work, which you will need in order to complete the Community Service Online Submission Form at the beginning of the school year. Instructions will be given when school starts in September.

10 hours per year may not seem like much, but if you are busy after school - whether on a team, in the play, or at some other activity - it can be hard to find time. My best advice is to find some volunteer work this summer, so that you can start working toward your 10 hours. See the list below for summer service opportunities. Please refer to this to help you choose volunteer work this summer.

If you have any questions about Service @ SEM, please feel free to email me: khopkins@buffaloseminary.org.

Let's get out there and make a difference!
